

Public Meetings and Public Involvement Update

Airport Futures PAG

June 16, 2009

Public Meeting Update

- 6/4 & 6/10 public meetings
 - 26 attendees at 2 public meetings in Portland/Vancouver
 - Generally supportive comments
- 6/9 Planning Commission and 6/10 Portland Commission information updates
 - Positive sessions
 - Comments from Bill Blosser, Dave Smith, Alesia Reese and John Weigant (Hector in attendance)
 - Showcased community partnership and sustainability
- 4 other stakeholder meetings

Other Public Outreach

- May 20 Public Involvement Subcommittee #14
- May 26 Rose City Park General Meeting**
- June 1 City Sustainability Efforts Special Information / Sustainability Subcommittee #5
- June 1 Central Northeast Neighbors Land Use Committee**
- June 2 Concordia Neighborhood Association**
- June 3 Land Use / Transportation Subcommittee #9
- June 4 Public Meeting #11 - Vancouver
- June 9 Portland Planning Commission Information Briefing
- June 10 Port Commission Information Briefing
- June 10 Public Meeting #12 - Portland
- June 15 North Portland Neighborhood Services Land Use Committee**

** Cancelled June 4 Technical Advisory Pool and June 9 Northeast Coalition of Neighbors Land Use meeting*

Key Comments from Outreach

Ongoing Public Involvement Strategy (OPIS)

- OPIS is not PAG - ongoing body not project driven
- OPIS will carry forward the principles, inclusiveness, and triple bottom line of PAG
- More limited time commitment and resources
- Will be established until Fall 2010 (tentative)
- Need to ask those proposed for membership – not assume interest
- Succession planning makes sense

Key Comments from Outreach

Land Use/Transportation

- Like Alderwood connection to Cully
- Industrial development around PDX makes sense
- Concern about the impact of height overlay on station development
- Opportunity for community review of the plan district
- Question regarding future use of Colwood

Natural Resources

- Interest in updates on proposed environmental overlays (4 property owners, 2 around Slough out of 400 postcards)

Key Comments from Outreach

Master Plan/Sustainability

- Incentives or creative ideas to stimulate sustainability initiatives by others (e.g., taxis)
- Consider anti-idling policy and waiting area facility for taxis, town cars
- CNG fueling station or electric car plug-ins to help with transition to alternative energy
- Work with Trimet on off-site long term parking at MAX stations for air travelers
- Consider move of LRT to other side of Airport Way to increase use by hotels, others
- Explore PDX connections to high speed rail
- Coordinate with proposed spaceport planning in future master plan updates
