

Airport Futures Planning Advisory Group

Vision and Values

Our **vision** is a PDX Master Plan and a City of Portland Land Use Plan that:

- 1 Allows the **City** to address the complex issues associated with PDX and their potential impacts,
- 2 Provides the **Community** with a greater opportunity to influence airport planning and development, and
- 3 Provides the **Port** with flexibility to respond to changing circumstances in airport development.

Sustainability is an overarching goal of this project. Sustainability means meeting the Region's air transportation needs without compromising the livability and quality of life for future generations. In this planning process, we will transparently explore and make recommendations that **fairly, realistically and optimally balance** the following **values and goals**:

In doing so, **our recommendations** will:

- 1 Balance and sustain economic, environmental, and social interests;
- 2 Integrate other local and regional planning efforts into Airport Futures planning and vice versa;
- 3 Provide long-term public involvement process with opportunities for meaningful public engagement and a voice in aviation development; and
- 4 Provide system to measure and track success and share results with public.

*Avoid/minimize/mitigate means: first, avoid; if not, minimize and mitigate where adverse impacts cannot be avoided.
